NUTRITIONAL BENEFITS

Highly Palatable encouraging early feed intake which is essential for early calf development and growth.

Digestible Grains & Proteins facilitating better utilization by the calf.

Balanced Specifications providing an optimum ratio of Protein & Energy.

Contains Calcium promoting early bone development.

Essential Vitamins & Minerals absolutely necessary for tissue and cell development.

Contains Bovatec or Monensin to help control and prevent Coccidiosis.

FEEDING GUIDE

Enerpro 20 can be offered to calves ad-lib after 4 days of age following sufficient colostrum intake.

Enerpro 16 can be offered to calves as a Free Flowing meal, until the desired weights are achieved.

Both calf supplements should be fed in conjunction with a suitable calf Milk Replacer with clean hay and water available at all times.

INGREDIENTS

Ingredients from both Enerpro 20 and Enerpro 16 are selected from:

Wheat, Barley, Soyameal, Canola Meal, Corn, Peas, Grain Pellets, Soyabean Hulls, Kibbled Maize, Lime Flour, Salt, Molasses, Canola Oil, Vitamins and Minerals, Coccidiostat

NO PKE is included in either Enerpro 20 or Enerpro 16. Both calf supplements contain essential Vitamins & Minerals along with a coccidiostat to help control Coccidiosis.
